THE PROMISE

LIVE WELL.
Feel alive.

*A place where wellbeing is woven into the pleasures of everyday life
— with room for both celebration and personal restoration.*

The English helps people feel more alive through experiences they genuinely enjoy. Its distinction is a lively, culturally engaging approach to wellbeing: tranquility remains available, alongside music, shared meals, outdoor adventures, learning and entertainment.

Warm hospitality and beautiful design give guests and residents a reason to return — and a community to belong to.

THE MISSION

To build a place where exceptional food, social connection, nature, creativity and wellness meet — so guests and residents leave feeling more alive than when they arrived. Celebration and restoration, under one roof, at your own pace.

CONCEPT RENDER

PART ONE

THE TABLE

Chef Todd English's restaurants anchor the experience.

Ingredient-driven menus connect pleasure with nourishment and offer choices for individual wellness goals. In the restaurants, the aroma comes from the food itself: warm bread, fresh herbs, citrus and cooking.

SIGNATURE RESTAURANTS Chef-led rooms with their own personality

THE ENGLISH BAR The social heart of every property

COMMUNAL SUPPERS Shared tables, hosted naturally

COOKING CLASSES Learn the table, not just taste it

CHEF-HOSTED DINNERS An evening at the pass

THE STEAKHOUSE

THE ENGLISH Steakhouse

Gold leaf, dark timber and candlelight — a dining room built for long evenings.

Rich wood, warm light, curated art, stone, greenery and copper details give the room its distinctive visual and tactile identity.

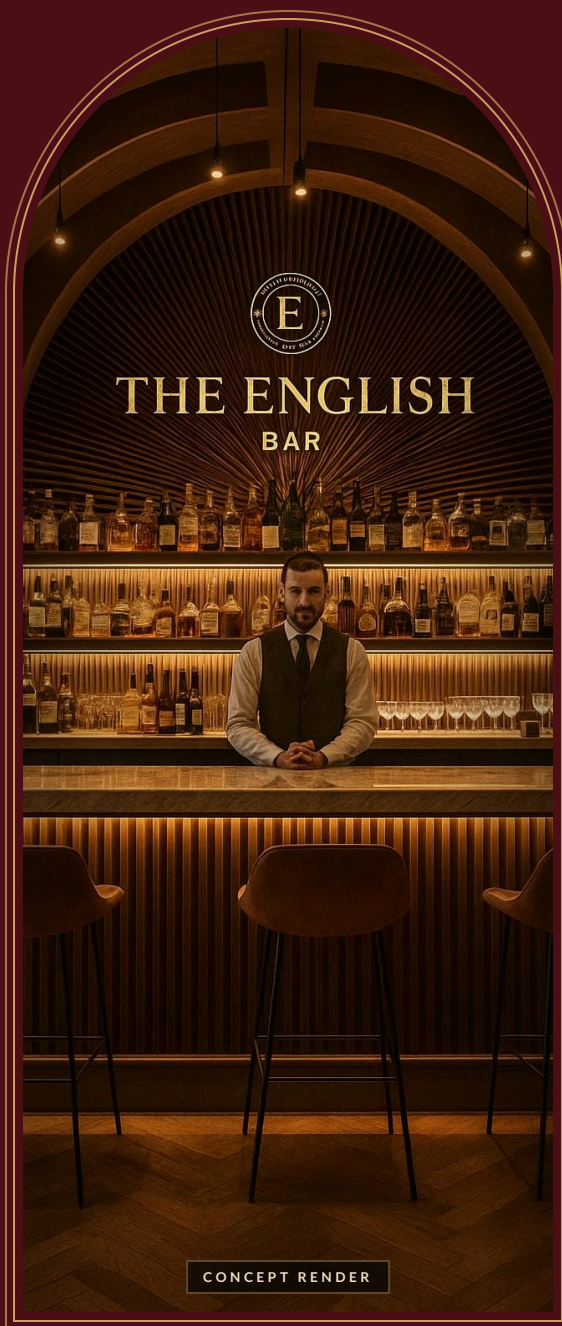

Menus are ingredient-driven: the pleasure of a great steakhouse, with choices that suit each guest's own wellness goals.

THE ENGLISH BAR

WHERE THE *evening* BEGINS

Music gives each space its personality — from relaxed daytime listening to live performances and lively evenings.

The English Bar is the brand's front room: a place for a first drink, a late conversation, or a set from a visiting musician.

Thoughtful hosts help solo travelers and new residents join in naturally.

THE RESTAURANT FAMILY

MORE THAN *one table*

Each property can host a family of restaurant concepts around the flagship.
Names and formats shown are concepts in development.

CONCEPT RENDER

SECRET OMAKASE

An intimate, hidden counter — the chef's choice, course by course.

CONCEPT RENDER

ENSŌ

A lantern-lit Japanese-inspired room built around the counter.

CONCEPT RENDER

THE PEPPER CLUB

A soaring, convivial dining room by Todd English.

CONCEPT RENDER

DIM SUM

Warm timber and lantern light for sharing plates.

PART TWO THE CLUB

Social connection is the first wellness amenity.

Members' lounges, a wine room and a fireside salon give guests and residents somewhere to gather — and someone to gather with. Thoughtful hosts make introductions, so no one dines alone unless they choose to.

MEMBERS' LOUNGES	Private, hosted, unhurried
THE WINE ROOM	A quieter pour, by the bottle wall
FIRESIDE SALON	Conversation as the main event
LIVE EVENINGS	Music, talks and screenings

PROOF OF CONCEPT

2022

WHERE IT *began*

The English Hotel, Las Vegas Arts District.

The English Hotel opened in 2022 on South Main Street, in the Las Vegas Arts District — a 74-room hotel in Marriott’s Tribute Portfolio, built around Chef Todd English’s table.

It proved the idea: that a hotel can be organized around food, a great bar and a sense of community. The English Hotel & Residences takes that idea further — into residences, wellness and culture, across multiple sites.
